

# SampleQ: Laboratory automation and more

## New: HeadSpace Tray for 60 vials

### Cold but Fog free, Headspace tray for 60 vials

Cold storage of samples provides stability and reproducibility

Conditioning is crucial in serial analysis of volatile and / or bioactive compounds. This universal tray holder offers unique and practical advantages:

- Stable and fog-free from 3 degrees
- Accessible to analyst and robot
- Flexibly applicable for 11-20mm bottles
- Silent and completely autonomous
- Universally suitable for both LC and GC systems
